

# Learning Projects- Week 15

## EYFS

✓ Ready to RECAP! ✓

### Weekly Literacy Tasks (aim to do 1 per day)

For the final three weeks before summer it is time to **recap those all-important mathematical skills** you've been focusing over the past 14 weeks. Link back to your previous learning and show your teachers how **fantastic you are!**

## Doing the washing!

With the weather being hot there can sometimes be a lot of washing to do! One of the biggest problems is there is normally lots of socks that need pairing up!

Count in 2s by matching socks up in the garden and pair them together. How many pairs have you ended up with? How many individual socks are there?

**Did you find any odd socks? Where might the other one have gone?**

### Story time...

Click on the book to listen to the story

Reginald started a fire by smoking his Cigar can you make signs to stop people from smoking or having BBQs in the countryside to stop fires and hurting people?

**Stop it Reginald!**

No smoking

## Double Numbers!

Whilst the weather is hot, get outside and do some finger painting! Not just any finger painting, some to practise 'doubles'

Print your finger on one side of the paper, fold it in half and watch your finger prints double right before your eyes!

How many spots were there to start with?  
How many now once they've been doubled.

Harry and Betty made a list for their wedding of things they may need. If you were organising a party what would you need? Can you make a of all the things to include?

### Party time!

Make a list of questions that you could ask the characters in the story. How might they reply?

### Where did Harry go?

Can you draw a map of the farm, where did Harry and Betty go to collect things for the wedding? What did they collect and who did they collect them from?

### Weekly Creative Tasks (Aim to do 1 per day)

## Ten Green Bottles!

Click on the picture above to listen to the 10 green bottle song. As you listen to the song provide 10 bottles and act it out.

1. What is happening to the number of bottles each time one falls?

Further questions linked to this song can be found [here!](#)

## Counting to 20!

It's time to nail those numbers to 20!

Practise counting from 0-20. Why not use lots of silly voices and record your child counting? Try counting quietly like a mouse or loud like a dragon and remember to become a Rocketship when you count backwards!

### Betty's Bouquet!

Betty needs a bouquet of flowers for her wedding, can you collect wild flowers or some you may have in your garden and give them someone special?

### Necklace of...

For Betty's wedding the crab made a necklace of shells for her, can you make a necklace using materials you can find in the house or your garden?

### Can you make Harry and Betty?

Using yours or an adults clothes can you make a real Harry and Betty by stuffing them with old newspaper?
